

Assistant/Associate/Full Professor

**University of Florida
Gainesville, Florida**

Tenure-Track Faculty Position in zoonotic diseases, College of Public Health and Health Professions.

The University of Florida's College of Public Health and Health Professions invites applications for a tenure-track Assistant/Associate/Full Professor faculty position in zoonotic diseases or one health. Through zoonotic disease research, we embrace goals of the One Health Commission towards improved assessment, treatment, and prevention of cross-species disease transmission. The successful candidate will join a growing and dynamic department with colleagues who conduct research in environmental infectious diseases, toxicology, and global health. The new faculty member will academically join the Colleges Environmental and Global Health Department and, depending upon expertise, may have additional research affiliations with other UF colleges, institutes, or centers, including the College of Veterinary Medicine. The candidate will be responsible for developing an independent research program and for teaching zoonotic diseases, one health, or environmental health courses. Applicants should have a doctoral degree in veterinary medicine, public health, environmental health, medicine, or a related field. Previous demonstrated excellence in winning research funding and in teaching is absolutely essential. The position is supported by a competitive salary and startup package. This is a 1.0 FTE, 12-month tenure track position.

The University of Florida is a comprehensive Research I institution that includes a remarkably wide range of academic departments and programs (www.ufl.edu). PPHP (www.pphp.ufl.edu) is part of the University's Health Science Center, which also includes the Colleges of Medicine, Pharmacy, Nursing, Dentistry, and Veterinary Medicine. The new Emerging Pathogens Institute (www.epi.ufl.edu) provides another exciting source of collaborators as well. Other Colleges at UF provide excellent opportunities for collaboration with colleagues in ecology, soil and water science, natural resources, environmental engineering, and nanotechnology.

Applicants should submit a letter of interest, a CV, and three letters of recommendation, referencing PS# 00023796. Teaching and research statements, if available, are also strongly encouraged. Mail should be sent to Environmental and Global Health Search Committee c/o Mr. David Buckelew, College of Public Health and Health Professions, PO Box 100188, University of Florida, Gainesville, Florida 32610-0188. (Phone 352/273-6188, Fax 352/273-6070, email buckelew@php.ufl.edu). Application review will begin May 1, 2011 and continue until a suitable applicant pool has been established.

The University of Florida is An Equal Opportunity Employer. Individuals with minority and/or disability status are encouraged to apply. If an accommodation due to a disability is needed to apply for this position please call 352-392-2477 or the Florida Relay System at 800-955-8771 (TDD).

CONTACT: David Buckelew, Buckelew@php.ufl.edu
